Dear Sir,

I would much appreciate any information concerning postdoctoral grants in European or American research facilities that your Institution could provide. My field is molecular and cell biology of regulatory substances, specially applied to medical problems. Actually I am very interested in the growth factors responsible of tumoral proliferation in lungs and have invitations from the laboratory of Dr F. Cuttitta (BPRB, DCPC, NCI, NIH, Bethesda, Maryland) and from Prof. JM Polak (Histochemistry Department, RPMS, Hammersmith Hospital, London).

Thank you very much for your attentions. I look forward to hearing from you.

Sincerely yours,

Dr. Alfredo Martínez
